

tRNA Gene clusters in Three Organisms

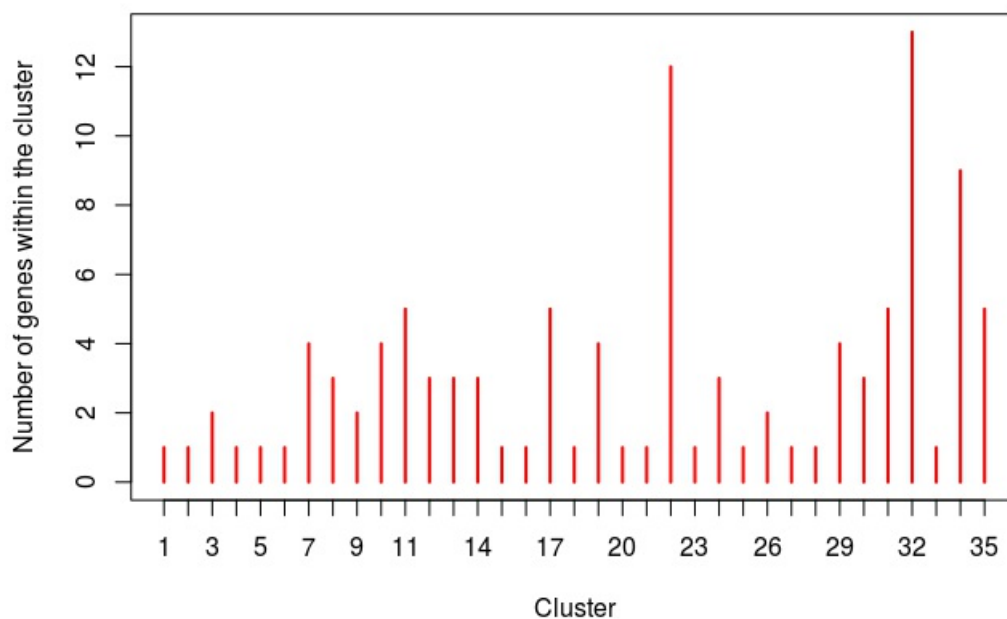

Number of genes in each cluster for organism infantum

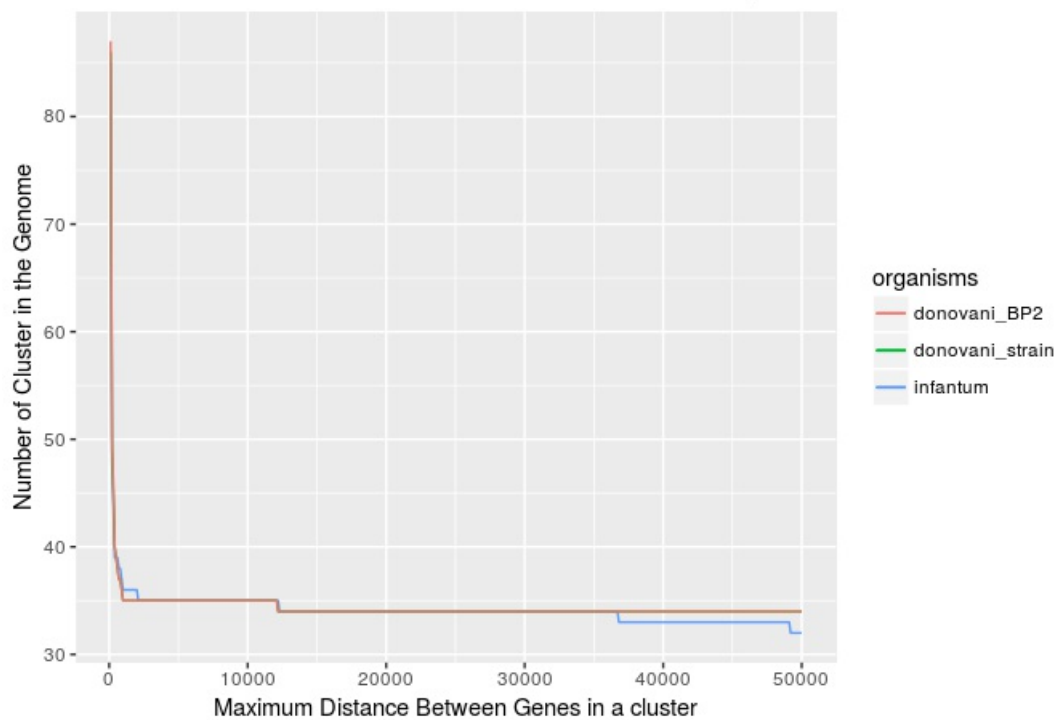

Number of genes in each cluster for organism donovani_strain

Number of genes in each cluster for organism donovani_BP2

Number of clusters VS. Maximum distance between genes in a cluster

```
## [1] "number of genes in organism infantum that are closer than 10000 to either of the ends of reference sequence is: 0"
```
